

~~CONFIDENTIAL~~DIRECTOR OF CENTRAL INTELLIGENCE
SECURITY COMMITTEE
COMPARTMENTATION SUBCOMMITTEE

1 September 1983

MEMORANDUM FOR: Chairman, DCI Security Committee (SECOM)

SUBJECT: Unofficial Travel to Yugoslavia ☐

25X1

25X1 1. ☐ By memorandum, 4 August 1983 (SECOM-D-165), same subject, you asked that the Compartmentation Subcommittee review the status of Yugoslavia as a country to which travel, according to SECOM policy, should be considered a "hazardous activity." Your request was prompted by a memorandum from the SECOM NSA member (serial M5/0061/83) asking for such a review for two reasons:

25X1 (1) ☐ Yugoslavia will be the site of the 1984 Winter Olympics.

25X1 (2) ☐ Yugoslavia has entered into new agreements with the US Forces in Europe offering economically attractive tour packages for US military personnel.

25X1 2. ☐ The Compartmentation Subcommittee met on 30 August 1983 to review this matter. After extended discussions and careful review of this matter, the Subcommittee reached agreement on the following position:

25X1 a. ☐ That Yugoslavia remain on the DCI SECOM listing of "hazardous areas" as there is no basis for deletion from the list. On the contrary, it appeared the Winter Olympics and Yugoslavian "rest camps" offer an increased potential for hostile intelligence service interest in US visitors.

25X1 b. ☐ That the 8 April 1983 DCI SECOM "Security Policy Concerning Travel and Assignment of Personnel with Access to SCI" provides adequate guidance to the Intelligence Community on how to process SCI-indoctrinated persons who advise of proposed travel to Yugoslavia.

25X1 c. ☐ That Intelligence Community members should consider issuing special reminders to personnel under their SCI security cognizance to emphasize the necessity to comply with the DCI SECOM policy statement and to warn of the possible dangers in
